

## Axle Tech Parts

Axle Tech Parts - AxleTech International is a leading dealer in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The business prides itself on being its clients' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for delivery, quality, service and technology. They believe in working within an atmosphere that encourages the highest integrity with empowered collaboration, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and offering a safe environment for their employees to work in. Additionally, they have applied many programs in the organization to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with any questions or comments, because they are happy to promote and share this policy with a greater understanding of their efforts. They are very dedicated to preserving and improving the surroundings. AxleTech has an EHS program which not only protects the environment but which also actively protects their employees and neighbors as well.

AxleTech specializes in the manufacture and designing of planetary axles for both military and commercial applications, that could consist of anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech particularly designs axles to meet certain application demands. They have over 1000 different axle specs in their existing offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The company is well known in many military and commercial applications. They offer complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details that can be seen in the "ISAS" product selection.
