

Rockwell Parts

Rockwell Part - AxleTech International is a leading provider in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its clients' chosen supplier. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working within an environment that encourages the utmost integrity with empowered collaboration, along with a persistent pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively using principals of environmental stewardship and safety in how they do business. The business has put different programs in place to be able to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whichever comments or questions, since they are happy to share and promote this policy with a greater knowledge of their efforts. They are very dedicated to preserving and improving the surroundings. AxleTech has an EHS program that not just protects the natural world but which also actively protects their neighbors and employees as well.

AxleTech specializes in the manufacture and designing of planetary axles used for both commercial and military applications, that may comprise anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech specifically designs axles in order to meet specific application demands. They have over 1000 different axle specs within their current offering. With more than 100+ years of history and experience, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The business is well known in numerous commercial and military applications. They provide complete axle assemblies for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details that can be seen in the "ISAS" product collection.
